# Z - Type the perfect graphic platform

Because each of the 24 / 28 vertical fabric segments is constructed from individual panels that are sewn together, the Z-Type envelope provides the perfect display medium for detailed promotional artwork and imaginative spiral and step designs.

A beautiful and elegant shape built to the most exacting standards and sold with a written guarantee, Z-Type envelopes are popular with corporate and private purchasers.

Designed by computer to a natural mathematical form which gives zero horizontal stress, the loads are carried not by the fabric but by multiple, closely spaced, vertical tapes.

Envelope deflation is via a standard parachute. Alternatively we can fit one of our world beating rapid deflation systems, such as RDS.

Exclusive Calibre 2 fabric - resistant to fungal attack and fading - is standard, while Hyperlast, the only balloon fabric that is silicone coated on both sides to increase envelope life by up to 50%, is optional. Nineteen standard fabric colours - plus silver and gold - are available. Fabric can also be dyed to meet special requirements.

## Model designation: Z

Sizes (000 ft<sup>3</sup>/m<sup>3</sup>)

<b>Z-25</b>	(25/710)	<b>Z-180</b>	(180/5100)
<b>Z-31</b>	(31/890)	<b>Z-210</b>	(210/5950)
<b>Z-42</b>	(42/1190)	<b>Z-225</b>	(225/6370)
<b>Z-56</b>	(56/1590)	<b>Z-250</b>	(250/7080)
<b>Z-69</b>	(69/1950)	<b>Z-275</b>	(275/7850)
<b>Z-77</b>	(77/2190)	<b>Z-315</b>	(315/8920)
<b>Z-90</b>	(90/2550)	<b>Z-350</b>	(350/9910)

<b>Z-140</b>	(140/3970)	<b>Z-425</b>	(425/12040)
<b>Z-150</b>	(150/4250)	<b>Z-450</b>	(450/12740)
<b>Z-160</b>	(160/4530)	<b>Z-600</b>	(600/16922)

- Gores:** 24 (28 on 375 + above)
- Burners:** Shadow single. Shadow and Stealth double, triple and quad combinations
- Baskets:** 10 sizes, duo airchair, Voyager and Lite
- Accessories:** Full range including choice of rapid deflation systems

*NB: The number of persons a balloon envelope can lift depends on the weight of each passenger, the height of the launch site above sea level, and the ambient temperature.*

*A colouring chart for this model can be found in the envelopes section at [www.cameronballoons.co.uk](http://www.cameronballoons.co.uk)*

A comprehensive range of baskets is available with the Z-Type. Basket construction is from cane and willow, or all cane, in elegant natural shades but with coloured banding to your specification as an option. Suede trim is standard with leather as an alternative, again with a wide colour range.

Single, double and triple burners are available in various combinations from our Shadow and ultra-quiet Stealth ranges.

Inflation fans, radios, tethering equipment and trailers - in fact all the accessories you might want to complement your Z-Type balloon - are also available from Cameron.
